# How to send SMS on Portal

The screenshot displays the 'Add Bulk Dispatch SMS Information' form in the SMS Portal. The form includes fields for Mission Name, Direction, Select Template, SMS Type, OA, Signature, Signature Position, SMS Content, Destination Number, and Business Channel. Red boxes and arrows highlight key elements: the SMS Content field (containing 'Your pin code is 123456'), the Destination Number field (with an 'Import Number List' button), and the Business Channel dropdown (set to 'CMIMY'). An arrow points from the 'Import Number List' button to an Excel spreadsheet titled 'template (3).xlsx'. The spreadsheet shows a list of phone numbers in column A, with the first two rows containing '+639215347566'. Another arrow points from the 'OA' field to a mobile phone mockup displaying the SMS content: '[CloudSMS] Your pin code is 123456. 😊'.

# How to send SMS on Portal

The screenshot displays the 'Add Bulk Dispatch SMS Information' form within the 'SMS / Bulk Dispatching Tool' interface. Red arrows and boxes highlight key configuration steps:

- Mission Name:** A text input field with a limit of 30 characters.
- Direction:** Radio buttons for 'Mainland China' and 'Other Countries/Regions'.
- Select Template:** A dropdown menu with a 'Default Template' link.
- SMS Type:** Radio buttons for 'Verify Code', 'Business SMS', and 'Marketing SMS'.
- OA:** A text input field with a limit of 1/15. A note states: 'The country direction of OA can be customized for reference'.
- Signature:** A text input field with the value 'CloudSMS'.
- Signature Position:** Radio buttons for 'Start of SMS' (selected) and 'End of SMS'.
- SMS Content:** A text area containing the template: 'Hello \${Name}, your pin code is 123456, get more info via link: \${website}'. The variables are highlighted with red boxes.
- Destination Number:** A button labeled 'Import Number List'.
- Business Channel:** A dropdown menu with the value 'Alabang'.

A preview window shows the rendered SMS content: '[CloudSMS] Hello \${Name}, your pin code is 123456, get more info via link: \${website} 😊'.

An Excel spreadsheet is shown with the following data:

Phone Number	Name	website
+639215347566	Amy	<a href="http://www.baidu.com">www.baidu.com</a>
+639215347566	Bob	<a href="http://www.sina.com.cn">www.sina.com.cn</a>

# How to send SMS on Portal

- If you do not set Dispatch Time, once you click the “submit” button, the SMS will be sent immediately.
- You need to refresh this page to get updated status after submitting.

\*Destination Number: [Import Number List](#)

- Please click to download data import template. [\[Data Import Template.xlsx\]](#) [\[Data Import Template.csv\]](#)
- Please upload phone number list data attachment in .xlsx format. The number of column in data table must be the same as the number of variable(s) in SMS content template.
- For Excel, the unit format must either be "general" or "text".
- Please maintain the same sequence of variable data column as that appearing in SMS content template, and strictly follow the template format.
- Attachment file size should not be larger than 1M. It is recommended to maintain the amount of phone numbers less than 100,000 in single attachment file.

\*Business Channel:

Dispatch Timer Setting: ☐

- If you need to cancel, please execute the cancellation 5 minutes before the sending time
- The dispatching time for SMS must be set from 08:00 to 22:00.
